REASONS FOR ALLOWANCE

1. The current application was withdrawn from issue in order to permit further consideration of the claims. That further review has been completed and the claims remain allowed. As Applicant correctly notes in the most recent response, the prior art does not teach internal capture tags in probes where upon cleavage of the probe, the internal capture tag is placed at the terminus of the probe. In the absence of prior art teaching or suggesting this limitation of the claims, the claimed invention is novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (571)272-0782. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
